
Using DSDM Atern with PRINCE2™ Workshop (DSDM+P2)

Workshop Overview

This workshop covers the hybrid approach of running a project with DSDM Atern and PRINCE2™ in tandem. The relative merits of each approach are explained as well as the rationale for integrating the two methods. Each delegate will receive the DSDM Atern pocketbook.

Workshop Objectives

To give delegates an overview of integrating DSDM Atern and PRINCE2™. To familiarise delegates with the advantages of integrating the two methods and the techniques used.

Who will the workshop benefit?

Delegates looking to run PRINCE2™ projects in a more agile way or delegates looking to give DSDM Atern a greater level of project governance. The workshop would also benefit personnel at either a programme or strategic level investigating an alternative approach to project delivery.

Pre-requisites:

Some familiarity with PRINCE2™ or similar approach would be desirable.

Workshop Content

- The Method Spectrum
